About Us

eBookinfotech (Erstwhile Market Link) We have established ourselves in the field of IT enabled services with full enthusiasm to meet our customers requirements. eBookinfotech provides IT enabled solutions to cater the industry's requirements. We provide turnkey solutions that allows timely delivery , reporting, accountability and quality and scheduling of project. We provide unique solutions to suit every customer's needs.

eBookinfotech strategy is to provide cost effective solution prior to the inception of the projects which we take up with our customers. Industry trends show that companies that have been asking the question 'why outsource' have become vocal advocates of the outsourcing model outsourcing model. Outsourcing work has come to be a tried-and-tested model and is recognized as a long term competitive strategy for success. The question going around now is 'why outsource?' but 'why not outsource?'

why outsource?

- Are my resources being utilized effectively?
Are my current resources capable of supporting new technology?
Is there a quicker, more effective method to handle processes? Does my team have the operational expertise to do the task assigned?
Are we working at optimum costs?
Three Reasons to Outsource to eBookinfotech

COST

- We work when you have work for us and always act as your backup.
We're able to work remotely. You don't have to worry about having extra office space or equipment.

TIME

- We can handle routine financial tasks. You're free to focus on other aspects of running your business.
We don't require intensive training or supervision. You can hand off a task knowing that it will be completed accurately and on time.

ASSUARANCE

- We are knowledgeable professionals, committed to becoming familiar with you and your business quickly. You can relax knowing that you have a dedicated business partner.
We can problem-solve, trouble-shoot and can reach out anytime. You minimize costly down-time by having extra support on days that don't go according to plan

more importantly, you can focus on your core business and forget about projects outsourced to us as we handle them as our own business which is our bread and butter!!

Word to XML.

Excel to XML.

e-Book Conversion

Thanks to the growing use of electronic and mobile devices, knowledge has gone “digital”. It’s undoubtedly a good thing, for digitization makes it easier to locate and work with content. Organizations, educational institutions and businesses alike are now required to produce and publish content on the digital media. But often they lack the resources to do so.

If you find that you are short of the time or the technology necessary to meet your e-Publishing requirements, you have come to the right place. eBookinfotech offers a complete set of ePublishing services, which are entirely customized to suit your needs.

How to ensure the text in your file will convert properly.

In order to properly convert a document to ePub, it must contain “real” text that isn’t rasterized or included within an image. To tell if your text is “real” there are a few things you can do:

If you have a PDF:

If you can select the text separately, then copy and paste it into a Word document, and all text, punctuation and formatting copies correctly, your document contains text that is ready for conversion.

If you have a Word document:

If you can select the text separately or modify it in any way, your document contains text that is ready for conversion. If your book has images that contain text, your final ePub file will also show that text as part of the image.

Many hand-held devices which today are the widely used means of content consumption use ePub as the standard format for electronic publications. eBookinfotech is capable of handling any type of ePub conversion as per any publishers need requirements.
